WATER SUPPLY

PURPLE pipes have untreated river water at the moment, suitable for dishes and showering. Let the tap run for a minute or so to give a good flush.

GREEN pipes (next to the stage area and in the centre of the grounds) are untreated river water.

BLUE pipes are rainwater (located near the toilet block, next to the stage and in the centre of the grounds). Even though these water outlets are rainwater, we suggest that for human consumption it be boiled first. We use it for making our cuppa tea after training and we are still OK.
